TYB-D35 Rebar Bender

The TYB-D35 Rebar Bender has excellent bending performance. This machine bends up to 32mm rebar to a maximum bending angle of 180° within 5 seconds. The dual angle adjustment system allows simultaneous bends for two different angles without adjusting the angle adjustment control. The operation for each angle selection can be operated with either of the two foot switch controls.

OFFERING ULTIMATE PERFORMANCE IN REBAR BENDING TECHNOLOGY

Specifications

	TYB-D35
Bending Angle	180° / 5 Seconds
Bending Capacity	HD10-32
Motor	2.1kw (2 motors)
Power	AC 220 / 240V, 50hz
Weight	180kg
Dimensions L x W x H	673 x 500 x 447
Accessories	<ul style="list-style-type: none">• Foot Controls x 2• Multi Bending Die for rebar up to 13mm x 1• Bending Die for sizes 16, 19 & 25mm x 1• Bending Die Carry Case x 1

Also available: TYB-D26 for 25mm maximum rebar bending.
