## MODEL "SUPER" NK THREADED ROD CUTTER

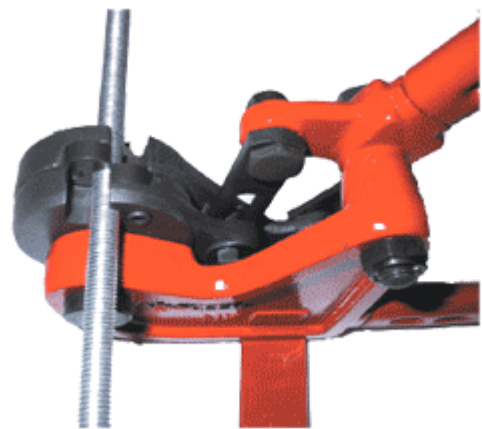

This unique tool is of great advantage to companies having to cut numerous pieces of threaded rod to required lengths for installation and suspensions of:

Water and sewerage pipe work, fire fighting sprinkler systems, air conditioning duct work, electrical metal tray systems etc.

**Made in Japan by "Supertool"**

**SAVES TIME - NO BURR**

- Blades, jaws and body made of high quality tool steel
- Completely heat treated assuring sharpness to blades and long durability
- Easy to operate
- Threaded rod cutter gives a fast, precise "clean cut"
- No damage to rod when cutting
- Eliminates grinding or filing – no burr removal is required
- Rod cutter can cut 6mm, 8mm, 10mm or 3/8" mild steel threaded rod
- Lightweight and compact – body weighs 4.5kg, length is 768mm

**CUTS CLEAN – NUT OR FIXING CAN BE IMMEDIATELY SCREWED ONTO ROD**

Lifespan on cutting blades is approximately 4000 cuts
