Kamekura NP-2 Hydraulic Hole Puncher

The NP-2 is manufactured in Japan by Kamekura Seiki CO. Ltd who are the manufacturers of precision hydraulic hole punching equipment. Our popular model NP-2 fully hydraulic hole puncher is a precision manufactured tool to give a life time of reliable service to any tradesman requiring to penetrate holes in sheet metal, stainless steel, copper, brass and aluminium.

The NP-2 boasts the following features:

- Portable and extremely powerful hole puncher allowing the operator easy operation with no excessive pressure.
- Punching operation is simple, fast and easy requiring little effort.
- Professional finish on job with no damage to finished painted products.
- Can be applied to any working position allowing the operator more flexibility to punch holes in confined situations for control panel work.

The cutting dies of all Kamekura manufactured products are designed to the highest quality against wear and tear for long life under normal working conditions. The punch and dies provide strong resistance against wear especially when working with stainless steel.

Specifications

	NP-2
Punching Capacity	15mm to 120mm (round) 20mm to 100mm (square)
Maximum Thickness of Material	3.2mm mild steel 2.0mm stainless steel
Output Capacity	15 ton
Weight	6.6kg (body only)

NP-2 Punching Capacity

Round Punch & Die Set Size	Applicable Piston Shaft	Max. thickness Mild Steel	Max. thickness Stainless Steel
15 to 16mm	NPM 3/8" + NPM 3/4"	2.3mm	1.6mm
17 to 32mm	NPM 3/8" + NPM 3/4"	3.2mm	2.0mm
33 to 67mm	NPM 3/4"	3.2mm	2.0mm
68 to 90mm	NPM 3/4"	2.3mm	1.6mm
91 to 120mm	NPM 3/4"	2.3mm	1.2mm
