S.E.K. (JAPAN) TUNGSTEN CARBIDE HOLE CUTTERS

S.C. TYPE - QUICK CHANGE BLADE

**MADE IN
JAPAN**

Stainelec are the Sole Australian agents for S.E.K. Co. Ltd precision cutting tools to the Metal Working Industry.

These S.E.K. Tungsten Carbide Hole Cutters which are manufactured in Japan are among the world's best quality, with patented design to the cutting angle between teeth configuration, therefore, less effort is required when using electric/battery drilling tools. The outer and inner cutting tip edges are so designed to enhance the discharge of chips and thus resulting in a smooth and efficient operation. On completion of hole cutting a mill finish is accomplished on the internal face of the work piece. Being a precision cutting tool the operator will achieve there exact desired hole cut size.
