

230 DET10 Hydraulic Rescue Concrete Crushers

Innovators in
Precision
Rescue Tools &
Equipment

This portable unit is suited for rescue situations and demolition works in the Construction Industry. The 230 DE T10 allows the operator to easily remove sections of concrete attached to structures without disturbing existing fixture material.

Extremely useful for victims in rescue situations with extrication from collapsed walls, stair cases, lift shafts, columns, etc. The 230 DE T10 provides low noise output and clean crushing whilst in operation, making it perfectly suited for any working environment.

This unit is designed & precision manufactured in Italy to the highest of international standards for the worldwide rescue industry.
