

# 315 DE Hydraulic Concrete Crushers

Innovators in  
Precision  
Hydraulic  
Crushing &  
Demolition Tools

This portable unit is suited for rescue situations and demolition works in the Construction Industry. The 315 DE allows the operator to easily remove sections of concrete attached to structures without disturbing existing fixture material.

Extremely useful for urban demolition works with collapsed walls, stair cases, lift shafts, columns, etc. The 315 DE provides low noise output and clean crushing whilst in operation, making it perfectly suited for any working environment.

This unit is designed & precision manufactured in Italy to the highest of international standards for the worldwide construction & rescue industry.
