

315 DE Hydraulic Concrete Crusher

This portable unit is suited for rescue situations and demolition works in the Construction Industry. The 315 DE allows the operator to easily remove sections of concrete attached to structures without disturbing existing fixture material. Extremely useful for victims in rescue situations with extrication from collapsed walls, stair cases, lift shafts, columns, etc. The 315 DE provides low noise output and clean crushing whilst in operation, making it perfectly suited for any working environment. This unit is designed & precision manufactured in Italy to the highest of international standards.

Specifications

	Model 315 DE Concrete Crusher
Hydraulic Pressure	700 Bar
Hydraulic Power	30 Tonnes
Maximum Opening	300mm
Crushing Power (Tips)	13.6 Tonnes
Weight	52Kgs
Dimensions L x W x H	740 x 860 x 180mm

DESIGNED & PRECISION MANUFACTURED IN ITALY
