

Made In Japan

## TC-16 Electric Hydraulic Rebar Cutter

### TC-16 Electric Rebar Cutter Features:

- Blade Construction: Powder High-Speed Steel with Titanium Coating.
- Cutting Capacity: Diameter 6mm (1/4")-16mm (5/8")
- Cutting Time: 4 Seconds
- Output Pressure: 11 ton
- Double Insulated Construction Reduces the Risk of Electric Shock
- Adjustable head: Turns 360 Degrees
- Weighs just 6.8kg
- Includes Ergonomic Shoulder Strap
- Features new stability attachment to prevent wrong angle cutting against rebar and blade.

Adjustable 360° Head

Technical Data	
Electrical Input	AC 230V 50/60Hz
Current Rating	3.6A (AC230V)
Power Consumption	760W
Output Pressure	11ton
Blades	Powder High-Speed Steel, hardness HRC60-62
Weight	6.8kg
Electric Cord Length	4.5m
Cutting Capacity	Diameter 6mm (1/4") - 16mm (5/8")
Cutting Time	4 Seconds
