

BC-300 Cordless Rescue Spreader & Cutter

Innovators in
Precision
Rescue Tools &
Equipment

**MADE IN
JAPAN**

The BC-300 Cordless rescue spreader & cutter has now been redesigned for optimum performance during rescue situations. This new and improved unit now features the new Makita Lithium Ion battery which improves longer use and battery life when in rescue situations.

The units twist grip handle control allows ease of use for the user as well as allowing fine movement for safely releasing a load when the tool is being used in lifting and pulling modes.

The well designed controls make operation in difficult situations easy, as the holding handle can be independently adjusted 360 degrees rotation to allow optimum positioning of the tool. This unit is easily portable and user friendly for all rescue applications. This tool is designed & proudly manufactured in Japan.
