

EDILGRAPPA

Made In Italy

MU16P Electric Hydraulic Rebar Bender

MU16P electric hydraulic rebar bender has been designed to bend 16mm high tensile rebar with ease for on-site & factory based applications. This unit is powered by a reliable 230 Volt electric motor which drives the precision designed radial pump that develops an output of 10 tons / 280 bar of hydraulic pressure.

The MU16P features a user friendly top handle trigger grip and boasts a lightweight and compact design, allowing the operator to move the tool around a worksite with ease. This unit is designed & precision manufactured in Italy to the highest of international standards for the global construction market.

<u>Specifications</u>	MU16P Electric Rebar Bender
Maximum Material Thickness	16mm Diameter Rebar
Motor	230 Volt / 50Hz
Maximum Bending Angle:	90 Degrees
Maximum Operating Pressure	10 Ton / 380 Bar
Weight	12Kgs
Dimensions L x W x H	500 x 120 x 230mm
Standard Accessories	Heavy Duty Carry Case

**DESIGNED FOR PROFESSIONALS THAT NEED TO BEND 16MM HIGH
TENSILE REBAR WITH EASE**
