Pro-Cut 12 Cordless Rebar Cutter

The Pro Cut 12 cordless handle cutter will safely and cleanly cut material up to 12mm diameter high tensile mesh rebar with ease. This unit is driven by an 18 Volt Lithium Ion battery and motor which gives the operator maximum portability when in use in factory or on-site applications.

The Pro Cut 12 also features a safety relief valve for retracting the piston and opening the cutting jaws if required by the operator. The Pro Cut 12 cordless cutter develops a operating pressure of 280 Bar and a cutting force of 7 tons. This tool is designed and precision manufactured in Italy to the highest of international standards.
