

EDILGRAPPA

Made In Italy

F130N Cordless Industrial & Rescue Electric Cutter

F130N Cordless Electric Cutter

The Edilgrappa F130N electric cordless rescue cutter is a precision engineered hydraulic cutter that can be used to shear and cut through metal obstructions in extrication scenarios and disaster relief areas. The F130N cutting head is hydraulically driven and can produce up to 550 Bar of pressure.

This unit features a battery powered motor that's powered by a Li-Ion battery, which drives a precision designed radial hydraulic pump that produces 550 Bar of pressure. This unit can always be relied on for continuous use on rescue & extrication operations. Fitted with a special grip, the F130N demonstrates maximum portability options when applied in multiple rescue situations.

Specifications

Specifications	Model F130N Cordless Cutter
Maximum Blade Opening	130mm Maximum Opening
Battery Operating Life	1.3 Hours
Maximum Operating Force	Cutting Force - 33.7 Tonnes
Weight	12.5Kgs
Dimensions L x W x H	690 x 240 x 360mm
Standard Accessories	Heavy Duty Carry Case
Hydraulic Pressure Output	550 Bar Pressure

FOR RAPID RESPONSE IN ANY RESCUE SITUATION
