

F180-2P 54V Cordless Hydraulic Shear Cutter

Innovators in
Precision
Hydraulic
Cutting Tools &
Equipment

The F180-2P cordless double-acting hydraulic steel cutter is a precision engineered cutter that can be used to shear and cut through metal obstructions in extrication scenarios as well as industrial steel cutting applications. The F180-2P cutting head is hydraulically driven and can produce up to 700 Bar of hydraulic operating pressure.

The F180-2P battery operated cutter can always be relied on for continuous use on rescue & industrial operations. Fitted with a special trigger grip, the F180-2P demonstrates maximum portability and easy to use controls in any working environment.
