

# ICARO TP38/45 Electric Hydraulic Rebar Cutter & Bender

ICARO are a well known manufacturer of rebar hydraulic tools for the construction industry for Italy as well as various global markets. ICAROs model TP38/45 combined rebar cutter & benders offers a range of extremely powerful & reliable units. This machine is suitable for high production bending in fabrication workshops as well as on-site construction applications. These units are designed & precision manufactured in Italy.

## Specifications

	ICARO TP38/45 Electric Hydraulic Rebar Cutter & Bender
Motor	415 Volt / 5Kw
Maximum Diameter Cutting Thickness	38mm Diameter - 45Kg / mm <sup>2</sup>
Maximum Diameter Bending Thickness	45mm Diameter - 45Kg / mm <sup>2</sup>
Power Output	5 HP
Cutting & Bending Speed	6 R.P.M.
Maximum Cutting & Bending High Tensile Bar	Rebar 80 Kg / mm <sup>2</sup> - (Refer to Specs Manual)
Weight	790 Kgs
Dimensions L x W x H	Total: 1040 x 1160 x 890mm
