

M-40LB Cordless Hydraulic Strut Cutter

Innovators in
Precision
Hydraulic Strut
Cutting Tools

The M-40LB cordless strut cutters are suitable for use in electrical, air conditioning and plumbing industries as well as in plant and engineering and various on-site applications. With no waste, mess or deburring.

The M-40LB offers high efficiency and safety in on-site requirements for cutting strut material. Dual cutting cassettes are available per customer's request for multiple size material.

Key features of M-40LB metal strut cutters:

- Hydraulic power system driven by a 18 Volt Hitachi Li-Ion battery & motor
- Motor casing can be adjusted to 3 different working positions to offer more flexibility when cutting different sections of material
- Cutting blades housed within the cassette for each type of strut material section
- Cassette can be easily changed within a few seconds to suit the size of the section required to be cut
- Enclosed cutter blades prevent injury to the operator during operation
- Ideally used for on-site & factory based operations with its powerfully convenient cordless design
- Features a maximum cutting force output of 9.5 Ton
- Dual profile cutting cassettes are available per customer's request
