

MDC300 Cordless Rescue Spreader & Cutter

Innovators in
Precision
Rescue Tools &
Equipment

The MDC-300 cordless rescue cutter & spreader is a precision engineered hydraulic cutter & spreader that can be used in extrication scenarios and disaster relief areas. The MDC-300 cutting/spreading head is hydraulically driven and can produce up to 7 Ton of pressure.

This unit features a battery powered motor that's powered by a Li-Ion battery, which drives a precision designed radial hydraulic pump that produces 7 Tons of pressure.

This unit can always be relied on for continuous use on rescue & extrication operations. Fitted with a special grip, the MDC-300 demonstrates maximum portability options when applied in multiple rescue situations. This specialized tool is designed & precision made in Italy.
