

MU16 Cordless Hydraulic Rebar Cutter

Innovators in
Precision
Hydraulic Rebar
Cutting Tools &
Equipment

**MADE IN
ITALY**

The MU16 cordless rebar cutter will safely and cleanly cut rebar up to 16mm diameter. This self contained electric hydraulic unit will also cut other items like chains, security seals, steel rod, rebar & padlocks.

This tool can cut material in a production setting & complies with WH&S standards as it does not produce sparks or heat when in operation.

The MU16 also features a safety relief valve for retracting the piston and opening the cutting jaws if required by the operator.

The cutting blades have 3 cutting edge faces and can be rotated to the next clean cutting edge for a longer cutting blade lifecycle & features a 360° rotatable cutting head.

***For Professionals That Need to Cut High
Tensile Chains, Bolts, Rebar & Locks.***
