### MU16D Electric Hydraulic Rebar Cutter

The MU16D rebar cutter will safely and cleanly cut rebar up to 16mm diameter. This self-contained electric/hydraulic unit will also cut other items like chains, bolts, steel mesh, rebar, locks and rod. The MU16D can cut in close proximity to a trapped victim in rescue situations, as it does not produce sparks or heat when in operation. The MU16D also features a safety relief valve for retracting the piston and opening the cutting jaws if required by the operator. The cutting blades have 3 cutting edge faces and can be rotated to the next clean cutting edge.

<b>Specifications</b>	<b>Model MU16D</b>
Motor	1100Watt / 230Volt / 5.2Amps
Cutting Speed	4 Seconds
Maximum Cutting Capacity	16mm High Tensile Material / 620N / mm <sup>2</sup>
Weight	9.2 kgs
Dimensions L x W x H	420 x 105 x 240mm
Standard Accessories	Heavy Duty Carry Case
Hydraulic Pressure Output	14 tons / 560 Bar

**FOR PROFESSIONALS THAT NEED TO CUT HIGH TENSILE REBAR**
