

Ogura HBB-35180 Hydraulic Rebar Bender

Stainelec Hydraulic Equipment now offer the HBB-35180 hydraulic rebar bender. This unit is designed to bend maximum 35mm diameter rebar material with ease. The HBB-35180 offers a user friendly & OH&S compliant design that does not sacrifice speed or power when in operation. This tool has been designed with an interchangeable bending collar system so that the operator can bend rebar anywhere from 0 to 180 degree angles.

Specially designed for maximum portability, the HBB-35180 complies with WH&S requirements for the construction industry. This equipment is currently being used in factory and on-site operations around the world for the global construction market. The HBB-35180 is designed & precision manufactured in Japan and is available from Stainelec Hydraulic Equipment.
