

## Ogura HBC-225 Hydraulic Rebar Cutter

Made In Japan

HBC-225 electric hydraulic rebar cutter have been designed for cutting maximum 25mm diameter high tensile rebar with ease for factory & on-site applications. Ogura's HBC-225 rebar cutters incorporate several safety features including an ergonomically designed cover guard system located over the moving cutter blades that provides protection to the operator when the tool is in operation.

The HBC-225 hydraulic system is powered by a Makita 230V electric motor. During operation, the specially designed fan cooling system delivers a high volume of air over the hydraulic pump and electric motor power supply to prevent overheating issues. The electric motor is also double insulated for safe operation.
