

## Ogura HSC-25BL Cordless Rebar Cutter

HSC-25BL cordless rebar cutters have been designed for cutting maximum 25mm diameter high tensile rebar, tensile fastening bolts, locks & threaded rod with ease for factory & on-site applications. Ogura's HSC-25BL cordless cutters incorporate several safety features including an ergonomically designed cover guard system located over the moving saw blade that provides protection to the operator when the tool is in operation.

The HSC-25BL cutting blade system is powered by a Makita 18Volt 5.0/Ah battery & motor. The cordless motor casing has been designed to protect the internals from moisture & dust. The support handle can be installed either on the left, right & top side of the cutting head. This unit also comes complete with a dust collection bag to for easy waste removal from the work area. The HSC-25BL is designed & precision manufactured in Japan to the highest of international standards.

Ogura HSC-25BL Cordless Rebar Cutter	
Max. Cutting Capacity:	25mm Diameter Rebar
RPM Blade Speed:	2,200 RPM
Weight:	4Kgs
Dimensions (L) x (W) x (H):	471 x 137 x 139mm

**FOR PROFESSIONALS THAT NEED TO CUT HIGH TENSILE 25MM DIAMETER REBAR WITH EASE**
