

ORC-19DF Cordless Rebar Cutter

Made In Japan

The New ORC-19DF battery powered rebar cutter is a unique tool developing high power to cut 20mm (620 grade material) rebar easily. The unique cutter head can rotate 360° for awkward site locations to cut rebar on a job site. Ogura's rebar cutters are powered by world famous Makita brand Lithium Ion 18 volt batteries and motor. These batteries require 20 minute recharge time. Weight of the tool is just 10.5kg with a cutting speed of 6 seconds for 20mm high tensile rebar with the high performance hydraulic pressure pump developing 600 Mpa (6000kgf / cm² bar).
