

# PG22/60DE Electric Hydraulic Hole Puncher

Innovators in  
Precision Hole  
Punching Tools  
& Equipment

**MADE IN  
ITALY**

The PG22/60 DE electric hydraulic hole puncher is a precision made portable puncher that can be applied to any working position in any given environment, which allows the operator more flexibility to punch holes in confined situations for a wide range of applications. The PG22/60 DE can punch through 6mm (250 Grade) mild steel plate maximum thickness.

This hydraulic hole punching range is manufactured in Italy to ISO9000 commercial standards with quality hardened tool steel. These punching machines are double acting for easy punch return and jamming free operation when in use by the operator. The PG22/60 DE electric hydraulic hole punchers are effective on a wide range of materials including I beams, channels, angles, tubes and plates.

UniStrut punch & die sets are also available for punching holes in strut material for fixing applications and suspension system such as threaded rods. This range is available in both cordless and electric models and are equipped with adjustable support and stripping plates.

# PG22/60DE Electric Hole Puncher Specs

## Specifications

<u>Specifications</u>	<b>Model PG22/60 DE Electric Hydraulic Hole Puncher</b>
<b>Motor</b>	230 Volt /50Hz (120 Volt/60Hz Also Available)
<b>Cutting Speed</b>	3.5 Seconds
<b>Maximum Punching Thickness</b>	6mm (250 Grade) Mild Steel
<b>Maximum Punching Size</b>	22mm Diameter
<b>Available UniStrut Punch &amp; Dies</b>	8, 11 & 14mm Diameter
<b>Maximum Throat Depth</b>	60mm
<b>Weight</b>	11.8Kgs
<b>Standard Accessories</b>	Heavy Duty Carry Case
<b>Maximum Punching Force</b>	15 Ton
<b>Hydraulic Output Pressure</b>	700 Bar Pressure

***Designed & Precision Manufactured In Italy to the Highest of International Standards***
