Pro-Cut 12 Rear Handle Hydraulic Cutter

The Pro-Cut 12 rear handle cutter will safely and cleanly cut material up to 12mm thick / diameter. This unit is driven by a 230 Volt Motor and can cut items such as chains, bolts, steel mesh, rebar, locks and rod. The Pro-Cut 12 also features a safety relief valve for retracting the piston and opening the cutting jaws if required by the operator. With a weight of only 6.7Kgs this unit proves to be extremely versatile and portable for all on-site and factory situations.
