

T22 / MU22N Interchangeable Rebar Cutter

Innovators in
Precision Rebar
Cutting Tools

**MADE IN
ITALY**

The T22 / MU22N interchangeable combo hydraulic rebar cutter enables the operator to execute their rebar cutting applications using a single tool. These tools have been designed to meet ISO9001 standards for the rebar industry with the portable rebar cutters and benders enabling easier and safer operation for WH&S compliance.

Key features for the T22 / MU22N interchangeable rebar cutter

- Unique interchangeable head system enables operable heads to be changed to bend, straighten or cut rebar
- OH&S compliant design - Maximum material thickness: 20mm diameter high tensile 650 grade
- Optional straightening head attachment for rebar
- Hydraulic output capacity: 25 ton
- Operating pressure: 570 bar - Weight of body: 13.5kg (excluding interchangeable heads)

These precision rebar cutting machines are designed & precision manufactured in Italy to the highest of international standard for the construction & rebar manufacturing markets.
