

# T26 Electric Hydraulic Rebar Cutter

Innovators in  
Precision  
Hydraulic Rebar  
Cutting Tools &  
Equipment

For professionals that demand the best. The T26 electric hydraulic rebar cutter is designed for cutting 26mm high tensile rebar with ease. The T26 boasts a powerful double insulated motor that drives the precision designed radial hydraulic pump which produces 32 Tons of hydraulic force.

The T26 is reliable for continuous use. Fitted with a cutter guard for safe operation for the user. This unit can be ideally used in on-site or factory based environments. This unit is designed and precision manufactured in Italy to the highest of international standards.
