

This new designed portable double acting hydraulic cable cutter will suit all cable cutting requirements to the electrical industry for cables up to a maximum of 140mm diameter.

This double acting cutting system is 100 percent blockage free, making this cutter fast and reliable when in operation. This unit features an OH&S compliant design and is user friendly.

The TC 140 cutter is most suited to cut armored copper cable for the mining and electrical industries. These cutters are OH&S compliant for on-site or factory operations and are a safer alternative than other conventional methods, such as grinding or friction cutting equipment.

This unit is commonly used in the process of cutting high tensile pre stressed cable with ease when in operation. This unit is precision manufactured and designed in Italy by Edilgrappa.

Specifications	Model TC 140 Cable Cutter
Maximum Material Thickness	140mm Dia
Maximum Operating Pressure	55 Ton / 700 Bar
Weight	90Kgs
Dimensions	925 x 300 x 210mm

FOR PROFESSIONAL THAT NEED TO CUT HIGH TENSILE CABLE
