The TC26 electric hydraulic chain cutter is a precision engineered hydraulic tool that can be used to cut through 26mm maximum high tensile chain. The TC26 cutting head is hydraulically driven by a reliable double insulated motor which drives a precision designed radial hydraulic pump that produces up to 31 Tons of pressure.

This unit can always be relied on for continuous use on building sites or factory based operations. Fitted with a special grip and compact design, the TC26 demonstrates maximum portability options between worksites.

The TC26 also features a guard system (OH&S compliant) which protects the operator from the cutting blades and flying debris while in operation. This unit is available in both 230 Volt & 115 Volt motor configurations.

***Designed to Keep the Operator Safe Without
Sacrificing Power or Efficiency***

TC26 Electric Hydraulic Chain Cutter Specifications

Model TC26 Electric Hydraulic Chain Cutter	
Motor	230Volt - 50Hz (Also available in 115Volt - 60Hz)
Cutting Speed	7.5 Seconds
Maximum Cutting Capacity	Maximum 26mm Diameter Chain
Weight	24.7Kgs
Dimensions L x W x H	700 x 300 x 165mm
Standard Accessories	Heavy Duty Carry Case
Hydraulic Pressure Output	31 Ton / 550 Bar

TC26 Cutting Capacity Chart

Chain Grade	Maximum Diameter
120	16mm
100	16mm
80	18mm
40	26mm
20	26mm

***For Professionals That Need to Cut 26mm High Tensile Chain
Proudly Made In Italy***
