**MADE IN
ITALY**

The TC32 electric hydraulic chain cutter is a precision engineered hydraulic tool that can be used to cut through 32mm maximum high tensile chain. The TC32 cutting head is hydraulically driven by a reliable double insulated motor which drives a precision designed radial hydraulic pump that produces up to 47 Tons of pressure.

This unit can always be relied on for continuous use on building sites or factory based operations. Fitted with a special grip and compact design, the TC32 demonstrates maximum portability options between worksites.

The TC32 also features a guard system (OH&S compliant) which protects the operator from the cutting blades and flying debris while in operation. This unit is available in both 230 Volt & 115 Volt motor configurations.

***Designed to Keep the Operator Safe Without
Sacrificing Power or Efficiency***

TC32 Electric Hydraulic Chain Cutter Specifications

Model TC32 Electric Hydraulic Chain Cutter	
Motor	230Volt - 50Hz (Also available in 115Volt - 60Hz)
Maximum Cutting Capacity	Maximum 32mm Diameter Chain
Weight	43Kgs
Dimensions L x W x H	700 x 300 x 165mm
Standard Accessories	Heavy Duty Carry Case
Hydraulic Pressure Output	47 Ton / 600 Bar

TC32 Cutting Capacity Chart

Chain Grade	Maximum Diameter
120	18mm
100	20mm
80	24mm
40	32mm
20	32mm

***For Professionals That Need to Cut 32mm High Tensile Chain
Proudly Made In Italy***
