TF32 Wire Rope Cutter MU26DE Electric Hydraulic Body

MU26DE Fitted With The TF32 Interchangeable
Wire Rope Cutter Head

Edilgrappa MU26DE Electric Hydraulic Body

The Edilgrappa TF32 wire rope cutter is a precision engineered hydraulic cutter that can be used to cut through 32mm wire rope. The TF32 cutting head is hydraulically driven by the MU26DE electric hydraulic body. This unit features a double insulated motor which drives a precision designed radial hydraulic pump that produces 40 tonnes of pressure. This unit can always be relied on for continuous use on building sites or factory based operations. Fitted with a special grip, the TF32 demonstrates maximum portability options between worksites.
